At the other end of the scale, a high-level air traffic controller (more than 8 years of experience) earns an average salary of \$128,947. \$103,809 (USD)/yr Average Base Salary \$49.91 (USD)/hr Average hourly rate \$3,415 (USD)/yr Average Bonus \$72.7 7 63 (USD) Entry-level salary \$128,947 (USD) Top salary About 23,260 air traffic controllers were working in the United States in May 2012, according to the United States. Bureau of Labor Statistics, and 94 per cent are employed by the federal government. Air traffic controllers are responsible for the safety of air passengers during flights. They track aircraft on radar screens and computers and instruct pilots during takeoffs and landings. Air traffic controllers also keep pilots informed of weather and runway conditions. Although their entry-level salaries are the same for all trainees, they can vary considerably depending on the geographic area after the training. Federal air traffic controllers earned entry-level salaries of \$17,981 in 2014, according to the FedJobs.com, which is actually their salary during training. These salaries are based on the FG-1 or GS-1 compensation levels established by the Federal Aviation Administration. The minimum education requirement for this position is a two- or four-year degree in air traffic control at a college, university or technical school. These schools must follow the guidelines of the Federal Aviation Administration's curriculum. After graduation, air traffic controllers must pass the standardized air traffic fitness test, or AT-SAT. BLS reports, which is an eight-hour test that includes mathematics, planning, visualization, problem solving and motion detection. Those who pass the test must then complete intensive training at the FAA Academy in Oklahoma City, which usually takes two to five months. Although the entry-level minimum wage was \$17,981 for air traffic controllers during training, most post-training salaries are based on certain indices that vary by city. These indices, which represent the cost of for example, are then multiplied by \$17,981 to determine specific salaries by city. The FAA also notes that post-training wages may vary depending on job complexity or job performance. In 2014, air traffic controllers earned the highest entry-level salaries of \$63,203.21 after training in San Francisco, according to FedJobs.com. New York air traffic controllers received the second highest entry-level salary of \$51,641.43, while those in Houston received the second highest They won \$30,855.39 in Columbus, Ohio, \$30,531.73 in Buffalo, N.Y., and \$26,396.10 in Indianapolis. Air traffic controllers' salaries can increase significantly as they gain experience. The average annual salary for an air traffic controller was \$118,430 in May 2012, according to the BLS. The highest 10 per cent earned more than \$171,340 per year. The federal government paid air traffic controllers an average of \$121,470. The BLS forecasts a 1 per cent growth in air traffic controller jobs from 2012 to 2022, which is much slower than the national rate of 11 per cent for all occupations. Air traffic has decreased in the United States, and most airports are fully staffed. Federal budget constraints will also limit employment opportunities for air traffic controllers. Air traffic controllers who are ready to move have the best chance of getting a job. Nine 90,000 \$Avg. Base Salary (USD)The average salary of an air traffic controller is 90,000 \$EXPLORE BY: An air traffic controller directs air and ground traffic. The air traffic controller warns pilots of obstacles that may be in their path, such as other aircraft and bad weather. The air traffic controller may sometimes have to reroute aircraft in flight when adverse weather conditions are present. The air traffic controller also assists aircraft in providing landing and take-off instructions. The air traffic controller will perform these tasks using radar...
